The Page 15This is a collection of 16 resources that help students to learn, practice, and review proportional relationships, unit rate, and proportional increases and decreases like tax, tips, and discounts. About This Product:-ZPage 13This Ratio, Rate, and proportional relationships unit in your sixth grade math class! Each section (ratio, rate, and unit rate) provides the definition along with an example problem to do as a class, and a practice problem for students to try on their own to check understanding. The 10-question format makes test prep, review, and practice much more manageable! This resource is now available a snowball fight with catapults and ping pong balls! This winter STEM catapult challenge involves engineering, geometry, ratios, critical thinking, and teamwork in an engaging winter-themed activity your students will love! Updated to include digital STEM journals for distance learning! Using the engineering design process along with math skills, teams of students will build two catapult designs from common materials (popsicle sticks, rubber bands, newspapers, magazines, cans, and other recPage 10Yes, a Mega Bundle! You may now purchase a bundled package that contains an introduction to ratios, rate, and proportions, an introduction to percent change, discounts and markups, and tax and tip, all at discounted bundled price. Topics included are ratio language, equivalent ratios, rate and real world rates, unit rates, real world ratios, ratio tables, real world percents. Standards covered include Proportions, Rate, Ratio, Equations, Expressions, Integers, Percent of a number (discount, sales, unit rates). etc.), Order of Operations, and more. Use with smartboard, projector, computer, pad or as printable. When you will receive four planning for your fractions and decimals unit is already done for you! This all-inclusive product includes: a complete lesson on how to set up, use, Page 6Middle School Math with a Christmas theme! Your middle school students will love working through ratio, proportion, unit rates, and measurement conversion, all with a fun holiday flair. Problems include: determining the better buy, writing ratios in three different forms, solving proportions, writing equivalent ratios, converting measures, and student error analysis. These TEKS & STAAR Aligned 10 Question Assessments are easy to incorporate as quick checks, review, practice, progress monitoring, guided math, intervention, and test prep! These STAAR Practice assessments are grouped by related standards/topics allowing for targeted practice. Scaffolded lesson provides for classroom differentiation. Also includes student answer sheets and answer key. The best part about this, everythiPage 22**\$1.00 off for the first day!** These are 7 Valentine-themed math learning stations that cover the rates unit from the CCSS (6.RP.1, 6.RP.2). Objectives: - Compute unit rates - Solve rate problems involving ratios of fractions - Solve rate problems inc A 10 day Ratios and Rates TEKS-Aligned complete unit including: ratios as comparisons, rate application, and measurement conversions. This no-prep math resource is truly print and go. Many of the questions are Christmas holiday themed, but you can find other versions of this jeopardy from Kimberly Gallo. Can be used as a lesson leader, guided practice, for cooperative learning packets, review, or homework. These units contain everything you need to introduce students to simple to sophisticated ratio, rate, unit rate, proportion, and percent concepts and ensure they understand and retain them! This product addresses sixth, sevenPage 11Task cards are a wonderful way of reviewing and allowing students the opportunity to work in partners or collaborative groups! This product includes 24 task cards (perfect for one or two class periods) that focus on ratios, unit rates, proportions, and converting measures. All activities are aligned to the progression of common core's "Ratio and Proportional Relationship". Just decide which math concept you want your middle schoolers to review, then copy and go. Everything you need to teach, practice, and assess decimals place value, adding, subtracting, multiplying and dividing decimals, rounding decimals, ractions, mixed fractions, improper fractions, include ratio, equations, inequalities, area, percent is included in this print and use unit. Math topics include ratio, equations, inequalities, area, percent is included in this print and use unit. Math topics include ratio, equations, inequalities, area, percent is included in this print and use unit. and writing expressions. Lesson is complete - NO PREP. This product is Common Core aligned. This works well as practice, homework, partner work, review, or even as a group quiz. These extremely motivating tasks will have students visualizing ratio, rate, and proportional reasoning through tables of equivalent ratios, tape diagrams, double number lines, and equations
